

"Lending A Hand In Our Community"

The Lynn Housing Authority and Neighborhood Development (LHAND) Outreach Program was formed approximately twelve years ago. The program was initially instituted to assist needy families and senior citizens during the Christmas Holiday season. All families were provided with winter coats, hats, mittens, toys and a food basket.

Over the next several years, the focus of the program was expanded. Assistance was given to families during other holidays and throughout the year. Children have also been sent to summer camp and assistance was given for school shopping and emergency situations.

The employees of the LHAND have given their time to act in a creative manner to assist people in our community in whatever way they need. Referrals are taken from other agencies, landlords, staff persons and elected officials.

It is our hope that the Outreach Program will continue to grow and assist needy families in our community.
